Design System Guidelines

The Tawtheeq Design and Brand Guidelines serve as a centralized reference for all digital product development under the Ministry of Justice, State of Kuwait. This document defines standardized components, visual styles, and interaction rules to ensure uniformity, scalability, and compliance across systems, enabling efficient collaboration and high-quality service delivery.

What can we help you find?

Hi 👋, how can I help?

where's the darkmode setting?!?

Dark mode can be customized and found in themes.

You can adjust your display settings, including dark mode, by navigating to Settings -> Appearances -> Display
or use the quick action below:

How can I test a nudge in CommandBar?

How do I schedule a release for my nudge?

Everything is designed. Few things are designed well.

Good design's not about what medium you're working in. It's about thinking hard about what you want to do and what you have to work with before you start.

The public is more familiar with bad design than good design. It is, in effect, conditioned to prefer bad design, because that is what it lives with. The new becomes threatening, the old reassuring.

Everything is designed. Few things are designed well.

Good design's not about what medium you're working in. It's about thinking hard about what you want to do and what you have to work with before you start.
